The 26th January 1888.—The following Resolution by the Government of India is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RESOLUTION—By the Government of India, Department of Finance and Commerce, No. 96, dated Calcutta, the 7th January 1888.

In accordance with the provisions of the Indian Securities Act XIII of 1886, the Governor-General in Council is pleased to make the following rules under section 14 of the Act :—

1. Interest cages, showing the several half-years at which interest will accrue, shall be imprinted on the reverse of each new note issued, and payment shall be recorded by the stamp of the Disbursing Office, or by a manuscript entry, over the space apportioned to the half-year concerned. If payment be made at a Presidency town, the recording entry shall show the Presidency and the date and number of the issuing warrant, which shall be in the form of a negotiable instrument payable to the holder's order. But if payment be made at a District Treasury, the recording entry shall show the name of the Treasury, the number borne by the payment voucher, and the date of payment; this entry shall be authenticated by the initials of the Treasury Officer, and the holder's receipt shall be taken on the face of the payment voucher. If, however, the note be of the old form, and bear no interest cage, the holder's endorsement for interest will be required on the note itself, and payments will be authenticated by the Disbursing Officer under the endorsement as heretofore.

2. Under the preceding rule, interest cages shall be imprinted, and (in the case of notes in the old form) holder's endorsements for interest shall be written only on the back of the note itself.

3. If the note be of the old form and bear no interest cage, the holder's endorsement for interest should agree letter for letter with the name in the body of the note, or in the transferring endorsement, as the case may be; the usual signature may be added below.

4. An endorsement or receipt by a native female must be attested by the signatures of at least two respectable witnesses, who must attend before the Officer in charge of the Treasury where interest is payable, and certify to the genuineness of the endorsement or receipt.

5. Notice of any private trust in an endorsement or receipt for interest is inadmissible.

6. A note blank endorsed by the holder is not receivable at any Government Treasury or at the Public Debt Offices in the Presidency towns. The holder of any such security will therefore be required to specially endorse the same before submitting it for payment of interest.

7. The holder of a note may be required to receipt the same for renewal in all or any of the following cases, that is to say—

- (1) If the note has been enfaced for payment of interest at a Mofussil Treasury, and the holder thereof is desirous of altering the place of payment.
- (2) If only sufficient room remains on the back of the note for one further endorsement, or when any word or words is or are written upon the note across any existing endorsement or endorsements, all cross endorsements being strictly prohibited.
- (3) If the note is torn or in any way damaged or crowded with writing, or unfit, in the opinion of the officer before whom it is produced for payment of interest, for receiving endorsement.
- (4) If, in the opinion of such last-mentioned officer, the title of the person presenting the note for payment of interest is irregular or not fully proved.
- (5) If the note in question, being a counterpart note issued under the provisions of Rule 8, has ceased to be the property of a minor, or to belong to an estate in which administration is limited to interest.

In all or any of the preceding cases payment of any further interest on such note may be refused until the note is receipted for renewal and actually renewed.

8. In the case of any note which is the property of a minor, or belongs to an estate in which administration is limited to interest, the Public Debt Office at Calcutta may, upon such note being deposited with them, issue to the holder of such note a counterpart thereof, having the words "counterpart not negotiable" stamped across the face thereof, and further payments of interest may be recorded upon such counterpart. Whenever such note shall cease to be the property of a minor, or shall cease to belong to an estate in which administration is limited to interest, the further payment of interest in respect of the note may be refused, until the first or any subsequent counterpart (as the case may be) issued in respect of it has been receipted and renewed in the manner provided in the last preceding rule. Upon such counterpart being receipted and renewed as aforesaid, the same, together with the original note and any preceding counterpart issued in respect thereof, will be cancelled.

9. No payment of interest, and no record or acknowledgment of the payment of interest, and no issue of a counterpart note under the preceding rules, is to be deemed or taken to be an acknowledgment of the title of the holder of any note.

10. The following fees are payable in respect of applications under sections 11 and 12 of the Act:—

For each renewed or duplicate security, 4 annas per cent. if the new note does not exceed Rs. 400, and Re. 1 if the new note exceeds that sum.

11. A note tendered for renewal must be receipted on the reverse as follows:—

“Received in lieu hereof a renewed note in the name of _____ with interest payable at _____

Signature of holder.”

12. If a person tendering a note for renewal applies for more than one note in lieu of the note tendered, the latter must be receipted on the reverse as follows, or as near thereto as circumstances will admit:—

“Received in lieu of the within two (or more) notes for Rs. _____, respectively in the name of _____, with interest payable at _____

Signature of holder.”

13. If a person tendering more than one note for renewal applies for one consolidated note in lieu of the notes tendered, the latter must be receipted as follows, or as near thereto as circumstances will admit:—

“Received in lieu of the within a new note in the name of _____ for Rs. _____ by consolidation with Promissory Note or Notes Nos. _____ (mentioning the numbers and amounts of the other notes desired to be consolidated with it) with interest payable at _____

Signature of holder.”

14. The form of receipt mentioned in the foregoing rules must be very clearly and correctly written, and there must be no ambiguity as to the name of the payee of the new note. The holder's signature should agree letter for letter with the name in the body of the note, or in the transferring endorsement, as the case may be; the usual signature may be added below.

15. The holder of any note requiring renewal may procure a renewed note in lieu of his original security in any of the following ways, that is to say, he may present it duly receipted, either in person or through a representative, at—(1) Public Debt Office, Bank of Bengal, Calcutta; or (2) at a Government Treasury for transmission to that office; or (3) at the Banks of Madras and Bombay, who, as Agents of the said Bank of Bengal, may either renew such notes on their own responsibility, or may forward them to the said Public Debt Office, Bank of Bengal, for renewal. In the case of notes presented direct to the said Public Debt Office, Bank of Bengal, or transmitted to it for renewal, either through a Government Treasury or the Bank of Madras or of Bombay, the prescribed officer referred to in section 11 of the said Act shall be the Secretary, Bank of Bengal, for the time being; and in the case of notes presented for renewal at the Bank of Madras or of Bombay, and renewed by those Banks on their own responsibility, such officer shall be the Secretary of the Bank of Madras or of the Bank of Bombay, for the time being, as the case may be.

16. The officer referred to in section 12, sub-section (1) of the Act, shall be the Comptroller-General for the time being.

17. The loss or destruction of a Promissory Note shall be notified, in the first instance, by letter addressed to the Bank of Bengal, Public Debt Office, Calcutta; such letter shall contain the following particulars:—

(1) Particulars of the note according to the following form:—

Promissory Note for Rs. _____, No. _____, of the _____ per cent. loan of _____

(2) Last half-year for which interest has been paid.

(3) To whom paid.

(4) Name of the person in whose name the note was issued (if known).

(5) Particulars of coupons attached (if any).

(6) Where enfaced at present.

(7) The circumstances attending the loss.

(8) Whether the loss was reported to the Police.

The above letter shall be accompanied by—

(a) The Post Office registry receipt for the letter containing the note, if the same was lost in transmission by post.

(b) The Police report, if any can be obtained.

(c) A letter signed by the Officer of the Treasury or Presidency Bank where interest was last paid, certifying the last payment of interest made on the note, and to whom, if interest was paid out of Calcutta.

(d) If the applicant is not the last registered holder, all documentary evidence necessary to trace back the title to the last registered holder.

(e) Any portions or fragment which may remain of the lost or destroyed note.

A duplicate of the letter to the Public Debt Office, Calcutta, must also be sent to the Treasury where interest is payable.

18. The loss or destruction of a Promissory Note shall be further notified by an advertisement, which the applicant for a duplicate note shall cause to be inserted in three successive issues of the *Gazette of India*, and of the Local Government Gazette of the place where the loss or destruction occurred. Such notification shall be in the form following, or as near thereto as the circumstances will admit:—

19. At the expiration of six months from the date of the insertion of the last advertisement, the Comptroller-General shall, if satisfied of the loss or destruction of a portion of a note, and of the justice of the claim of the applicant, and if a sufficient portion for the identification of the note so lost or destroyed shall have been produced, direct the Public Debt Office, upon the execution of such bond of indemnity as is hereinafter mentioned, to issue to the applicant a duplicate note in lieu of that so lost or destroyed as aforesaid. If, however, no portion or no sufficient portion of the note so lost or destroyed shall have been produced as aforesaid, then, at the expiration of two years from the date of the insertion of such last advertisement, the Comptroller-General shall, if satisfied as aforesaid, pass an order directing the Public Debt Office, upon the execution of such bond of indemnity as is hereinafter mentioned, to pay the applicant interest in respect of the note so lost or destroyed pending the issue of a duplicate note, and also directing the said Public Debt Office, at the expiration of six years from the date of the publication of the list in which the lost or destroyed security is first mentioned, if no reason to the contrary appear, to issue to the applicant (on his executing and procuring the execution by two sureties of such indemnity bond as is hereinafter mentioned, should the same be deemed necessary by the Comptroller-General), a duplicate note in lieu of that so lost or destroyed as aforesaid.

20. The Comptroller-General may, within six years of the date of an order passed by him under Rule 19, if he finds sufficient reason, alter or cancel such order, and may also require that the interval before the issue of a duplicate note be extended to twelve years, or such shorter period not being less than six years, as he may think fit.

21. Indemnity bonds when taken on the issue of a duplicate note or notes shall be for twice the amount of such note or notes, and when taken on the issue of orders for payment of interest shall be for twice the amount of the interest involved, that is to say, twice the aggregate amount of all back interest accrued due on the note, *plus* twice the amount of all interest to accrue due thereon, during the six years which will have to elapse before the issue of a duplicate note can be made. In simple cases such bonds may be issued by the Comptroller-General at Calcutta in a printed form prescribed by Government. No fee will be chargeable if a bond does not exceed in amount Rs. 500; but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000 or part of Rs. 1,000 will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. If however, the Comptroller-General consider that the circumstances of the case demand that a bond shall be specially prepared by the Government Solicitor, a fee of Rs. 32 shall be payable to that officer.

22. The list of securities lost or destroyed, referred to in section 12 (8) of the said Act in respect of which an order is made for payment of interest pending the issue of a duplicate security, or for the issue of such duplicate security, shall be advertised half-yearly in the *Gazette of India*, in the months of January and July, or as soon afterwards as may be convenient. All securities in respect of which an order has been passed as aforesaid shall be included in the first list published next after the passing of such order, and shall continue to be advertised every half-year until the expiration of six years from the date of first publication, or from the date of the last payment of interest on the original securities, whichever is the later date. Such list shall contain the following particulars, *viz.*, the name of the loan and number of the lost note, its value, in whose name it was issued, from what date it bears interest, the name of the claimant for a duplicate, the number and date of the order passed by the Comptroller-General for payment of interest or issue of a duplicate, and the date of publication of the list in which such security was first mentioned.

ORDER.—Ordered that this Resolution be communicated to the several Local Governments and Administrations, to the Comptroller and Auditor General, and to the several Accountants-General and Comptrollers.

Ordered also that the Resolution be published in the *Gazette of India* for the information of the public.

No. 608 — *The 24th January 1888.*—The late Assistant Surgeon Surjya Kumar Ghose, of the Boinechee Dispensary, was on leave from the 24th July to 14th August 1887, both days inclusive, under section 150, Chapter X of the Civil Leave Code.

A. J. COWIE,
Inspector-General of Civil Hospitals, Bengal.

HIGH COURT NOTICE.

It is ordered that the following rules be read and passed as the rules and orders of the High Court of Judicature at Fort William in Bengal, to take effect from the 1st day of March 1888.

1. A list of references of every description which are ripe for hearing and are pending before the Court itself, or before any of the officers of the Court, or any other Commissioner appointed to take accounts or make inquiries, shall be published at such times and in such manner as the Judge ordinarily taking motions on the Original Side of the Court may from time to time determine.

2. The printed cause list for each day shall contain a list of the references liable to be heard on that day by the officers before whom such references are pending.

3. Such list of references shall be divided into two parts—the first of such parts to consist of references of an urgent nature, or which can be quickly concluded, and to be styled “List of urgent references:” the second part to consist of all other references, and to be styled “List of ordinary references.”

4. Urgent references shall include the following:—

Accounts in mortgage suits.

Sales by the Registrar.

The settlement of proclamations of conditions of sale or of conveyances.

Inquiries under section 267 of the Civil Procedure Code, or under section 90 of the Probate and Administration Act.

Inquiries as to what would be proper to be allowed for maintenance or marriage expenses.

Inquiries as to whether proposed terms of settlement would be for the benefit of a minor.

References as to the appointment of guardian and such other inquiries and references as may be determined by the Court or a Judge.

5. Any Judge sitting on the Original Side may order any particular reference or inquiry to be taken as an urgent reference. Such order need not be made in Court, but may be made upon a representation made by the Registrar or other officer or Commissioner.

6. No reference shall be placed in the list of references for the day unless it be ripe for hearing.

7. The Registrar or other officer shall, at the commencement of each daily sitting, hear applications with regard to pending references, and shall not hear any reference until such applications have been exhausted, but no such application shall be made or heard on any day after the hearing of references have been commenced.

8. The officer or Commissioner shall, on each day in the first place, hear in order the urgent references on his list for the day, and shall then proceed to hear in order the ordinary references on his list for the day.

9. Each reference shall, unless otherwise ordered by a Judge, be taken in its turn, and it shall be continued *de die en diem* until it be concluded.

No references on the list of causes for the day shall (without leave of the Court or a Judge) be postponed or adjourned except under circumstances which would justify the postponement or adjournment of a cause. The consent of parties, or the convenience of Counsel or attorney, shall not of themselves be considered sufficient grounds for the postponement or adjournment of a reference or inquiry.

10. References not on the list of causes for the day can, at the discretion of the person to whom they have been referred, be postponed or adjourned, but subject to the control or orders of the Judge taking motions on the Original Side.

11. Any Judge sitting on the Original Side may, by an order in Court or in Chambers, postpone or adjourn any reference pending before himself or before any officer or Commissioner.

12. When, in the opinion of the Judge taking motions on the Original Side, it is necessary that some or all of the references pending before any officer of the Court or Commissioner should be heard by the Court itself, or by some other officer or Commissioner, such Judge may re-call such references into Court, and any time make such order as may be necessary for the purpose aforesaid, or if the parties should consent to any such change, he may make such order without re-calling the reference into Court.

13. These rules are to be read with, and to form part of, the general rules of the Original Side.

14. These rules shall come into operation on and from the 1st day of March 1888.

Secretary to the Govt. of Bengal.

SPECIAL ARRANGEMENTS IN FORCE AT COOPER'S HILL COLLEGE FOR THE PROFESSIONAL TRAINING OF FOREST STUDENTS.

CIRCULAR No. 1F.

Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department;—dated Calcutta, the 11th January 1888.

No. 22F., dated 24th September 1885.

Read also the following correspondence with Her Majesty's Secretary of State for India, regarding the special arrangements in force at Cooper's Hill College for the professional training of Forest Students:—

No. 3, dated 23rd July 1887.

From—His Excellency LORD DUFFERIN, Viceroy, and the HON'BLE GENERAL SIR F. S. ROBERTS, SIR T. C. HOPE, SIR A. COLVIN, GENERAL G. CHESNEY, A. R. SCOBLE, and J. B. PEILE, Members of Council,

To—Her Majesty's Secretary of State for India.

As we are frequently called upon to make available for employment in the Colonies the services of officers on the active list of our Indian Forest Service, whom we cannot spare without inconvenience, especially as we have to meet similar requisitions in India from the Chiefs of Native States, it has occurred to us to suggest that Dr. Schlich, Inspector-General of Forests to the Government of India, on deputation at Cooper's Hill College, might be instructed to prepare a Note, describing the special arrangements in force at that institution for the professional training of candidates for employment in the Forest Service, which might, with Your Lordship's approval, be communicated to the Colonial Office for the information of the Colonial Governments. Those Governments which aim at having a Forest Department of their own would thus have the opportunity afforded them of considering whether they might not themselves make provision for the education at Cooper's Hill College of such trained Forest Officers as may be required by them from time to time.

No. 88 (Revenue), dated 3rd November 1887.

From—The RIGHT HON'BLE VISCOUNT CROSS, G.C.B., Her Majesty's Secretary of State for India,

To—The Government of India.

WITH reference to the letter of Your Excellency's Government in the Forest Department, No. 3, dated 23rd July last, I forward herewith 25 copies of a paper which has been drawn up in accordance with your suggestion by Dr. Schlich describing the special arrangements in force at the Royal Indian Engineering College, Cooper's Hill, for the professional training of Forest students. Copies of this document have also been transmitted to the Colonial Office.

2. I take this opportunity of stating that this compilation will take the place of the "Paper of Particulars," and be issued to the public for general information.

[The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.]

1. The Royal Indian Engineering College is primarily maintained, under the orders of the Secretary of State for India in Council, for the education of candidates for the service of Government in the India Public Works, Telegraph, and Forest Departments; but it is open, to the extent of the accommodation available, to all persons desirous of following the course of study pursued in it.

India Forest Department Appointments.

2. Candidates for the India Forest Department are selected under the following arrangements:—

- (a) An applicant must be a natural-born British subject, and must be above 17 and under 21 years of age on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India he will forfeit his appointment.

* The staff of the College is only given in so far as it concerns the Forest Branch.
† Sir D. Brandis is not on the staff of the College.

(b) An applicant must send to the Revenue Department of the India Office, on or before the first day of May of the year in which he proposes to compete—

- (1) His name and parentage, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.
- (2) A statement of the places of education at which he may have been since he was nine years old, accompanied by testimonials of good conduct during the last four years. He must also pay a fee of 4l. by means of a special stamp, according to instructions which will be communicated to candidates.

(c) Applicants will have to appear before a Medical Board* at the India Office, and to satisfy the Board that they attain a suitable standard of physical constitution. Particular stress will be laid upon good vision and hearing, and means will be taken to test physical powers of endurance, so as to ensure the selection of persons of active habits and sound constitution.

(d) The applicants who have successfully passed the medical examination and the physical tests will be examined, usually in the month of June of each year, in the following subjects, marks being assigned as indicated below :—

No. of group.	Subject.	Maximum.	Minimum.
I.	1. Handwriting 2. Orthography 3. English composition	700	350

Algebra, up to and including Binomial Theorem, Arithmetical and Geometrical Series, Interest, and Annuities 7. Logarithms, including use of Tables 8. V.	15. Geometrical Drawing limited to Plane figures 16. Freehand Drawing	700	150
VI.	17. French or German, translation and oral... ..	500	150

(e) The Secretary of State reserves the right to reject any candidate who fails to obtain either the prescribed minimum of marks in any one group, or a total minimum of 2,000 marks.†

(f) From the competitors who attain the abovementioned minima of marks and satisfy the requisite conditions in other respects, the Secretary of State will select, as probationers to enter the College, those whom he may deem best adapted for the Forest Service of India. The number of candidates selected annually, which varies according to the requirements of the Forest Service in India, can be ascertained at the Revenue Department of the India Office, and it will also be advertised from time to time. *In 1888 there will be 12 probationers.*

3. The course of study for candidates for the India Forest Service extends over about 26 months. During the first 22 months, including two complete annual sessions, the candidates will prosecute their studies at the College, and during the remaining four months they will be instructed, under suitable supervision, in such British or Continental forests as may be selected for the purpose. Excursions will also be made during part of the College vacations.

4. Each annual session begins in September, and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer.

* With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Forest Service, it is suggested that candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the following points :—

1. A weak constitution.
2. Defective vision.
3. Impaired hearing.
4. The existence of any congenital defect.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

On the subject of the standard of eyesight required for the Indian service, a pamphlet has been published, under the authority of the Secretary of State in Council, by Messrs. Churchill and Sons, 11, New Burlington Street.

† The papers set at previous examinations, together with the number of marks obtained by the successful candidates, are published from time to time in the Reports of the Civil Service Commissioners, which can be procured through any bookseller.

5. An annual charge of 183*l.* is made for each student, which must be paid in advance to the Bank of England in three sums of 61*l.* per term. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed into residence until his fee has been paid.

6. A deposit of 5*l.* is required to be paid by each student on admission to the College, as caution money, to cover charges incurred by him for damage to books, instruments, &c., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion 66*l.*

7. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging with washing, and ordinary medical attendance while in residence at the College. When on tour and during the course of practical instruction, whether in Great Britain, or on the Continent, each student receives an allowance of 10*s.* per day in lieu of board, lodging, and washing, and the Secretary of State also defrays the travelling expenses of the students, fees to local Forest Officers, &c.

Students are required to provide their own class books and drawing instruments. Drawing paper, drawing boards, and surveying instruments are provided by the College.

8. The prescribed course of study at the College extends at present over a period of two years, divided into six terms, and comprises the following subjects:—

- (a) Mathematics, including Logarithms and Trigonometry.
- (b) Applied Mathematics, following the ordinary course for Engineering students.
- (c) Surveying, the course being the same as that laid down for Engineering students.
- (d) Descriptive Engineering, comprising a knowledge of the materials used in construction and road-making.
- (e) Geometrical Drawing.
- (f) Freehand Drawing.
- (g) Accounts.
- (h) French or German.
- (i) Physics (Theoretical and Practical).
- (k) Geology and Mineralogy.
- (l) Botany, including Anatomy, Physiology, Systematic Botany, and Pathology, with demonstrations in the laboratory, field, and at the Royal Botanic Gardens at Kew.
- (m) Entomology, preceded by an introduction to General Zoology.
- (n) Forestry in all its branches, with demonstrations in the museum, in adjoining woodlands, and more distant forests.
- (o) Practical course in Forestry, extending over about four months, in suitable forests in Great Britain and on the Continent.

9. Every student will be required to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress, failing which, or in the event of serious personal misconduct, he will not be allowed to remain at the College.

10. During the course of study, the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination.

11. The subjects enumerated in paragraph 8 are grouped in certain main branches of study, and a fixed minimum of qualification is required in each branch, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in Forestry.

12. The candidates who have obtained the abovementioned diploma, provided they are found to be of sound constitution and free from physical defects which would render them unsuitable for employment, the final decision on which point will rest with the Secretary of State for India, will be nominated Junior Assistant Conservators in the Forest Department of India, ranking in seniority in the service, and choosing the provinces in which they desire to be first employed, according to the results of the examinations. But this choice can only be exercised according to the available vacancies in the different provinces, and on the understanding that officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

13. Within a month of his nomination as Junior Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment. He must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will lead to forfeiture of appointment.

14. The pay of a Junior Assistant Conservator of Forests (which is at present Rs. 250 per mensem) will commence from the date of arrival in India.

15. Promotion, leave, and pension will be regulated by the rules of the Service for the time being.

16. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

GENERAL RULES.

17. Chemical, physical, and botanical laboratories, a forestry museum, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

18. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the general control of the Secretary of State for India.

19. The students are distributed in divisions, under personal charge of one of the Professors or Instructors selected by the President, such tutor being responsible for exercising the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

20. Each student residing in the College is provided with a separate room, and with fuel and light; also with the necessary attendance. Furniture and bedding are supplied by the College, but each student is required to provide his own towels and bed linen. Meals are taken in hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

21. A chapel is attached to the College, which the students residing in the College are expected to attend, unless specially exempted at the wish of their parents or guardians.

22. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

23. Students are required to wear academical dress, under such regulations as may be prescribed from time to time.

Students not nominated for the Indian Forest Service, but desirous of obtaining a Diploma in Forestry from Cooper's Hill College.

24. Students not nominated for the Indian Forest Service may be received into the College, as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service, as detailed above, or they may be permitted to participate in the instruction given in certain subject only. On attaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College Diploma in Forestry or special certificates showing in what subjects they have followed the instruction and with what result.

25. Candidates who desire to be admitted under paragraph 24 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

26. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College, about the last week in June of the year for admission. The examination will be in the subjects mentioned under paragraph 2 (d) (or certain portions of them, as the case may require), in so far as it is necessary to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces an university diploma, or other similar certificates granted by a recognized examining body.

27. Candidates admitted to the College under paragraph 24, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the India Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

Rule 18.—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them, when necessary, according to the rise and fall of the water. Rule 24.—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 25A.—The lessee of a ferry lying on the route of march shall be bound to collect such number of boats as may be required for crossing troops. If he fails to do so, the Magistrate may collect such boats and recover the cost from him as if it were rent of the ferry.

Indian Stamp Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. We have made it clear that the only renewals on which stamp-duty is to be paid are renewals of fire-policies in respect of which, and of any previous renewal whereof, there has not already been paid full stamp-duty at the highest rate chargeable

in respect of original policies of fire-insurance.

3. We have ascertained that it is sufficient to provide for fire-policies being drawn singly. We have proposed to amend article 49 of the schedule accordingly.

4. We have corrected a clerical error in the fourth sub-clause of clause (b) of the same article, and simplified the expression of the fifth sub-clause.

5. The Bill does not appear to us to stand in need of any other alteration.

6. We may observe that there is nothing in the Bill which will interfere with the practice, where it now obtains, of evidencing renewals of fire-policies from year to year by receipts only for premium paid. If full stamp-duty at the highest rate chargeable in respect of an original policy has once been paid, then the receipt evidencing the renewal will, if it acknowledges the payment of more than twenty rupees, be chargeable with stamp-duty of one anna only under Act I, 1879, Schedule I, article 52.

RESOLUTION.

In Home Department Resolution, dated the 12th February 1886, cited in the preamble, on the subject of the scheme for the establishment of six Government scholarships tenable in England by natives of India, it was provided that each scholar should be required to bind himself by a written engagement to submit to such regulations as may from time to time be framed by Her Majesty's Secretary of State for the guidance of the scholars during their stay in England.

With reference to this provision, the Secretary of State was asked to lay down such regulations as may be deemed necessary, and the following rules have been prescribed by His Lordship :—

Rules for Indian Government Scholars in England.

1. Every scholar shall, on reaching England, at once present himself at the India Office and report his arrival in writing.

2. Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University he intends to proceed, and shall at once take steps to enter himself at the College he has selected, or (with the special permission of the Secretary of State) as a non-collegiate student.

3. Every scholar shall, within four weeks of reaching England, submit for the approval of the Secretary of State a statement showing the general course of study he proposes to follow; and the course approved shall not be changed without the sanction of the Secretary of State.

4. Every scholar shall, at the end of each University term, submit to the Secretary of State a certificate from the proper College or University authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

5. Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

6. Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, will be paid monthly in advance by the India Office, commencing from the date of the scholar's reporting his arrival in England.

7. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence of three years in England, or who is guilty of misconduct or disregard of the orders of the Secretary of State. If a scholarship be forfeited, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

The Governor-General in Council requests that steps may be taken to cause a copy of these rules to be furnished to each selected scholar on his nomination.

ORDER—Ordered that a copy of this Resolution be forwarded to the Governments of Madras, Bombay, and the Punjab for information and guidance.

Ordered also that a copy be forwarded to the Governments of Bengal and the North-Western Provinces and Oudh, the Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg, and the Resident at Hyderabad, for information; and to the Registrar of the Calcutta University for information and guidance.

In the Khasengunge sub-division very little wheat is grown, and it is imported from the west by a long and difficult journey by road, hence high prices as compared with Arrareah. The Nodder sub-division is a large grain mart, and prices are kept down by trade competition. * Rise in price due to temporary local scarcity and unusual demand. † Fall in price attributable to new crop coming in.

													Meherpore, unlike Ranaghat, is situated far from great trade routes. Besides, trade at Meherpore is in the hands of a few shop-keepers, who import and store much less rice than the well-to-do dealers at Ranaghat. These facts account for the high price at Meherpore as compared with Ranaghat.

LEAVE AND APPOINTMENTS.

The 31st January 1888.

No. 546.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

It has been brought to the notice of the Government of India that officers employed under Government sometimes obtain leave of absence, with the intention of taking up other employment under Government or otherwise, or accept such employment while on leave. Where this is done with the previous knowledge and consent of the officer's Departmental superior, the practice is not open to objection. There is reason however to believe that, in the absence of any specific directions, officers are apt to consider it unnecessary to obtain the consent of their immediate superior before accepting employment elsewhere, and as it seems advisable that this practice should be discontinued, the Governor-General in Council has prescribed the following rules:—

- 1.—No Head of an Office should employ, either temporarily or permanently, an officer belonging to another establishment, without the previous consent of the officer on whose establishment he is at the time borne. In cases in which, for reasons which may appear satisfactory to the new employer, such consent cannot be obtained before the officer joins his new appointment, his employment may be made conditional on consent being obtained in due course.
- 2.—It shall be incumbent upon an officer employed under Government, whether on leave or not, before *accepting* other employment, either to resign his previous appointment, or to obtain the consent of his Departmental superior to his accepting such employment. If such consent is not obtained, either previously or, when this is not possible, in due course, the officer renders himself liable to be discharged from his previous appointment, and thus to lose the benefit of his previous service for pension.

2. There is nothing in these rules to prevent an officer on one establishment seeking employment on another. But an officer is not placed under any disability by resigning one appointment to take up another (Civil Pension Code, 101, 1); and it must be held to be a breach of discipline if an officer actually transfers his services to a new employer without first obtaining the consent of his old employer, or definitely resigning his old employment.

ORDERED, that this Resolution be communicated to the several Local Governments, Administrations, and Heads of Departments for information and guidance.

Ordered also, that the Resolution be published in the *Gazette of India*.

 - (b) any salt manufactured by the licensee remains in store in any Salt Store, the licensee shall, if required, pay into such Government treasury or sub-treasury as the Assistant Commissioner shall appoint, such sum as the Assistant Commissioner shall prescribe on account of the cost of the guarding establishments maintained by Government at such Salt Works or Salt Store; provided that, when the Salt Works of two or more licensees are so situated that they can be effectively supervised by a single establishment, or that when two or more licensees store their salt in a single Salt Store, one

establishment only may be employed for the guarding of such Salt Works or Salt Store, as the case may be, and that the cost of it shall be recovered from the several licensees in such proportions as the Assistant Commissioner may direct.

Provided also that if, after the expiry of the license, it shall be found that the cost (the prescribed pensionary and leave allowance contributions included) of the Government guarding establishments actually employed at the Salt Works and Salt Store during the period of the currency of the license, or the licensee's proportion of such cost, as the case may be, has not exceeded five per centum of the revenue derived by Government during such period from the levy of duty on salt manufactured in the licensee's Salt Works and issued from the Salt Store for consumption on payment of duty, the whole amount of the monthly sums paid as aforesaid shall be refunded to the licensee; and that, if such cost or proportion thereof has exceeded five per centum of such revenue, in that case five per centum of such revenue shall be returned.

iv.—No alteration shall be made in the pans, wells, or other plant of the Salt Work as existing at the date of the license without written sanction from the Salt Revenue Officer in charge of the Circle.

v.—Any wilful breach of the conditions of his license by the licensee, or by his servants with his connivance and privity, or by his heirs, administrators or assigns, shall entail forfeiture or suspension of the license at the discretion of the Assistant Commissioner in addition to any penalty which may by law be imposed for such breach.

vi.—All salt remaining in any Salt Work, the license to manufacture salt at which has been cancelled or suspended, shall be stored in the appointed place within fifteen days of the date of such cancelment or suspension; and all salt manufactured in any such Salt Work, which shall be in store at such date or shall subsequently be brought into store as hereinbefore provided, shall be removed on payment of duty within six months of such date. The Assistant Commissioner may cause any salt which may not be so stored after such period of fifteen days or which may remain in store after the expiry of such period of six months, to be stored, or to be put up to auction, and sold if the price offered be equal to the excise duty leviable thereon, as the case may be. If the Assistant Commissioner shall cause such salt to be stored, the cost of such storage, including the expenses of transport, if any, shall be recovered from the licensee. If such salt be so sold, and if the price bid be less than the excise duty leviable thereon, the Assistant Commissioner may cause the salt to be destroyed in such manner as he shall think fit.

Such licenses shall also be subject to such further conditions as the Assistant Commissioner may from time to time prescribe for the protection of the Government revenue.

5. The licensee shall commence and close manufacture within such dates as may be prescribed by the Assistant Commissioner, and shall at the commencement of each manufacturing season intimate in writing to the officer in charge of the Circle the number and extent of the pans which he intends to work in that season.

6. The licensee shall fence in the place of manufacture and the drying-grounds, and shall keep the fences in a proper state of repair to the satisfaction of the Assistant Commissioner, and shall refrain from injuring the same by entering or leaving the works by other than the authorised pathways. Permission will not be granted to commence manufacture in any year unless and until this condition is complied with.

7. All salt scraped shall be removed to the drying-ground before sunset of the same day. The officer in charge of the Works may order all salt not so removed to be destroyed in such manner as he shall deem fit.

8. Salt removed to the drying-ground shall be kept there only in such places as may be directed by the officer in charge of the Works.

9. Unless in the case of floods, or from other unavoidable necessity, salt shall be moved from the drying-grounds only to the Salt Store, and to the Salt Store only for the purpose of storage after permission to store has been obtained, at such times and in such quantities as may be ordered by the officer in charge of the Works.

10. In all cases in which he may consider it necessary for the protection of the revenue, the Assistant Commissioner may direct that no salt shall be moved from the drying-grounds to the Salt Store except in sealed bags, into each of which an equal weight or quantity of salt shall be placed, and under a written pass from the Salt Revenue Officer in charge of the Works. Such pass shall specify the name of the manufacturer, the number of his license, the route by which the salt is to be transported, the number of bags, and the date on which the pass is granted. A copy of every such pass shall be forwarded by the officer granting it to the Assistant Commissioner. All salt removed under such pass shall be weighed or estimated by measurement previous to such removal by the Salt Revenue establishments. The bags shall be sewn on the inside and sealed in such manner as the Assistant Commissioner may from time to time prescribe, and shall be conveyed direct and without unnecessary delay from the Works to the Salt Store by the route prescribed in the pass, which shall be delivered for

record to the officer in charge of the Salt Store, without removal of the seals or undoing the fastenings or otherwise tampering with the bags or the abstraction of their contents. All expenses connected with the weighment and bagging of the salt and with the sealing of the bags shall be paid by the licensee.

11. If the whole or any portion of a consignment of salt despatched from the Works to the Salt Store be not delivered at the Salt Store within the time mentioned in the pass, or if any bag or bags comprised in any such consignment be found, on arrival at the Salt Store and on inspection by the officer in charge thereof, to have been tampered with by removal of the seal or seals, or in any other manner, the licensee shall, on demand in writing, pay to the Assistant Commissioner enhanced duty on the said consignment, or on the portion thereof which has not been so delivered, or on the salt contained, at the time of their despatch from the Works, in the bag or bags so tampered with, as the case may be, at such rate as the Assistant Commissioner shall direct, not being more than double the rate for the time being imposed by rule under section 7(a) of the Act on salt manufactured in the Orissa Division; and shall also, if so required, forthwith remove from the Salt Store the said consignment or portion thereof, if subsequently received at the Salt Store, or the bag or bags so tampered with, as the case may be. Any such consignment or portion thereof, if subsequently received at the Salt Store, or bag or bags appearing to have been tampered with, may be detained by the officer in charge of the Salt Store pending the orders of the Assistant Commissioner. If the owner of any such consignment, &c., as aforesaid shall refuse to pay enhanced duty as aforesaid, or if he shall fail or neglect so to pay within seven days after the receipt of demand, the Assistant Commissioner may sell the whole or any part of such consignment, if subsequently received at the Salt Store, in such manner and at such time and place as he may think fit, and may credit the proceeds to Government. Before a demand for enhanced duty is made on a licensee under this rule, the Assistant Commissioner must be satisfied that an offence under section 9 of the Act has been committed, and, where the salt exceeds five seers in weight, he must make the report required by section 13.

Provided always that no such demand for the payment of enhanced duty as aforesaid shall be made if the owner of any such consignment as aforesaid shall satisfy the Assistant Commissioner or his official superior that the failure to deliver the said consignment or any part thereof at the Salt Store within the time specified in the pass, or that the removal of the seal or seals from a bag or bags, or other appearance of tampering with a bag or bags, was due to stress of weather or to accidents occurring to the boats or vehicles used in the transport of such consignment, or to other unavoidable cause beyond his power of control.

12. If the officer in charge of the Salt Store be satisfied that salt delivered to him has been transported according to rule and to the conditions of the pass, if the salt has been removed from the Salt Works under pass, he shall permit the licensee to store the salt.

13. The salt shall be stored in such places and in such manner as the Assistant Commissioner may from time to time authorize and direct by the servants and at the expense of the licensee.

14. All salt shall be stored within forty-five days of the date on which it was made, and within thirty days of the date fixed for the closing of manufacture.

15. The Assistant Commissioner may extend the above period of forty-five days and thirty days respectively in case storage should be unavoidably delayed by rain or by any other sufficient cause.

16. If a licensee shall fail to store his salt within the periods above prescribed, the officer in charge of the Circle shall take such steps as he may consider necessary for its storage; and the cost of such storage shall be recovered from the licensee.

17. No salt so stored shall be permitted to be removed from the Store on sale and payment of duty until the cost of such storage has been paid by, or has been recovered from, such licensee.

18. The officer in charge of the Circle may refuse to allow the storage of salt which he considers to be insufficiently dried for storage.

19. All salt shall be weighed into store under the supervision and directions of a Salt Revenue Officer of such rank as the Assistant Commissioner shall appoint. The buildings in which storage is made shall be previously approved by the Assistant Commissioner, and shall be divided into compartments in such manner as he shall direct. In each such compartment, so long as so much salt shall be available for storage, an equal weight of salt, not being less than five hundred maunds, shall be stored. No additional storage will be allowed in any compartment from the salt contained in which any removals may have been made, except after the re-weighment of the remainder of the salt and before the resumption of removals from such remainder.

20. The licensee shall keep in a proper state of repair, to the satisfaction of the Assistant Commissioner, all buildings used for the storage of his salt. If he shall fail to begin any repairs which the Assistant Commissioner may order him to make within ten days of the receipt of a written notice from the Assistant Commissioner directing him to make such repairs, or shall fail to complete any such repairs within the time specified in such notice, the Assistant Commissioner may proceed to have such repairs executed, and may recover the cost thereof from the licensee.

21. The licensee shall provide and maintain suitable and secure fastenings to the buildings in which the salt is stored, to the satisfaction of the Assistant Commissioner, for the attachment of locks to be provided by Government. The keys of all such locks will be retained by the officer in charge of the Salt Store, but the licensee will be at liberty to affix his own locks also, provided that he shall always, on the requisition of the Assistant Commissioner or of the officer in charge of the Circle, or of the Salt Store, immediately remove his locks.

22. The Assistant Commissioner may, at his discretion, call on the licensee to store any sifted or refuse salt manufactured by him which may be lying unstored within the limits of the Salt Works, or, at the option of the licensee, to destroy the same. If the licensee shall fail either to store or to destroy such salt within ten days of the receipt of the order so to do, the Assistant Commissioner may cause such salt to be destroyed, and may recover the cost of such destruction from the licensee; and the Assistant Commissioner shall have authority to determine finally, and without appeal, whether any salt is sifted or refuse for the purposes of this rule.

23. Unless in the case of floods, or from other unavoidable necessity, no salt shall be removed from any Salt Store except for consumption on payment of duty under a permit.

24. Persons wishing to remove salt from a Salt Store for consumption on payment of duty shall first pay the charges due thereon into such Government treasury or sub-treasury as may from time to time be appointed and shall receive in return a receipt.

Fractions of quarter maunds shall be paid for as quarter maunds.

25. The receipt shall be presented with a written requisition to the Salt Revenue Officer in charge of the Salt Store, who will grant in lieu a permit for the removal of the salt, and will depute a subordinate officer to supervise its weighment and issue to the holder of the permit. If, however, the officer in charge of the Salt Store suspect the genuineness of the receipt or other fraud, he may refuse to issue the permit except under security equivalent to the full value of the salt covered by such receipt, together with the duty leviable thereon, and shall refer the case for the orders of his superior.

26. No permit will be granted for the removal of less than twenty-four maunds of salt at one time, except to complete the clearance of a compartment, or as a sample, for which latter purpose one maund of salt may be removed from each compartment on not more than three occasions.

27. Salt will only be issued on such days and at such times as the Assistant Commissioner may appoint for each Salt Store. All salt shall be removed on the day on which it is weighed out, and shall, for this purpose, be placed in bags, to be provided by the holder of the permit to the satisfaction of the officer in charge of the Salt Store, into each of which the same weight of salt shall be placed. When the weighment and bagging of the salt is completed, the bags will be retained, until check-weighed by an Inspector or Assistant Inspector, who will counter-sign the permit, and allow the removal of the salt.

28. If on check-weighment of any consignment of salt by an Inspector or Assistant Inspector as aforesaid it is found to exceed the quantity entered in the permit, the following practice shall be observed by the Inspector or Assistant Inspector :—

(a) If the excess is not more than one per cent., he shall allow the consignment to pass unquestioned.

(b) If the excess exceeds one per cent., he shall—

(1) if the officer in charge of the Circle, and if satisfied on enquiry that an offence punishable under section 9 of the Act has been committed, either detain the whole consignment and make complaint to a Magistrate and institute proceedings with a view to the confiscation of such salt, or release the consignment on payment of such penalty under section 13 of the Act as he may think proper, provided that no salt shall be released on payment of a penalty if the excess shall exceed 3 per cent., except under the orders of the Assistant Commissioner; or

(2) if subordinate to the officer in charge of the Circle, detain the whole consignment and report the matter without delay for the orders of the officer in charge of the Circle, who shall dispose of it in the manner last hereinbefore provided.

29. All salt shall be weighed, both when stored and also when removed on payment of duty, with the scales provided by Government for the purpose, in such manner as the Assistant Commissioner may from time to time direct.

30. No storage or removals of salt will be allowed on Sundays or authorized holidays, or on days on which, in the opinion of the officer in charge of the Store, the state of the weather is such as to render storage or removals inadvisable.

31. Licensees shall furnish the labour for conveying the machines and weights to be used in the storage and removal of salt from the place where they may be to the place where they may be required to be used for storage and removals. The licensee for the storage or removal of whose salt any machines or weights are last used on any day shall supply the labour for replacing the same in the place where they are usually kept, and for cleaning the same to the satisfaction of the officer in charge.

32. Licensees shall be responsible for all damage, other than fair wear and tear, done to machines or weights in the storage or removal of their salt.

33. Nothing in these rules shall apply to the manufacture of salt by or on behalf of Government.

34. The Assistant Commissioner may prescribe all forms necessary for the administration of the Act.

Protected Area, and the Possession, Transport, and Sale of Salt therein.

35. The area defined for the purpose of section 6, clause (e), round the Salt Works of Orissa shall extend to a distance of two miles from the boundary of each *panga* Salt Work on all sides. Such areas are termed "protected areas."

28. No person shall possess or transport more than one seer of salt within a protected area, unless it be—

- (i) protected by a rawánah;
- (ii) within the boundaries of a salt work;
- (iii) in transit from a salt work to a salt store;
- (iv) in the possession of an officer of Government;
- (v) in the possession of a person licensed under Rule 44.

37. Rawánahs for the transport of salt within protected areas will be issued by the officer in charge of the Salt Store from which the salt is removed, or by such officers as the Assistant Commissioner may appoint for the purpose.

38. Rawánahs shall be current and valid for such periods as the officer issuing them may fix as reasonable and sufficient to allow of the salt reaching its destination or passing beyond the limits of the protected area or areas concerned, as the case may be. The date on which the currency of a rawánah terminates shall be specified therein.

39. An officer issuing a rawánah may specify therein the route by which the salt shall be removed, and such rawánah shall not be valid except along the route so specified. He may also specify the hour at which the currency of a rawánah shall terminate.

40. Every rawánah shall be returned to the Inspector of the Circle in which it was issued, either by hand or by means of a registered letter within seven days of the termination of the period for which it was current.

41. Rawánahs shall always accompany the salt to which they refer, and shall be produced on demand for the inspection of any officer of the Salt or Police Department. Such officer shall be at liberty to endorse such remarks thereon as he may think fit.

42. Any officer of the Salt or Police Department may detain any consignment of salt covered by a rawánah within a protected area for the purpose of weighing the same. Such weighment shall be made by such officer as the Inspector of the Circle may generally or specially appoint for the purpose.

43. If on weighment of salt so detained it is found to exceed the quantity entered in the rawánah, the weighing officer shall proceed as prescribed in Rule 28.

44. The Assistant Commissioner may issue licenses for the possession and retail sale of salt within any protected area, subject to such conditions as he may from time to time prescribe. Such license shall only cover the possession and sale of salt within the licensee's shop, the position of which shall be clearly defined therein.

45. Every person retailing salt under such a license shall keep a register of sales written up daily, and such other accounts as the Assistant Commissioner may prescribe, and shall permit any officer of the Salt Department, of not lower grade than a Sub-Inspector, to examine such accounts on demand, and to weigh the salt in store on his premises.

46. On the arrival of a consignment of salt at the shop of any licensed vendor, he shall within twenty-four hours notify its receipt in writing to the Inspector of the Circle, specifying in such notice the number and date of the rawánah, the quantity and description of the salt covered thereby, and the store from which it was obtained.

47. Every person licensed to sell salt within a protected area under Rule 44 shall, on the first day of each month, submit to the Inspector of the Circle within which his shop is situated a statement signed by him specifying the quantity of salt received and sold by him in the previous month. Such statement shall be in such form and shall contain such particulars as the Assistant Commissioner may from time to time prescribe.

48. Clause V of Rule 4 shall apply to licenses for the retail sale of salt within protected areas.

Disposal of persons arrested.

49. Salt Revenue Officers who may make arrests shall, unless empowered under the ante-penultimate paragraph of section 20, at once send the persons arrested, with any independent witnesses whose attendance they may be able to secure, to the nearest police station, at the same time making a full report of the circumstances under which the arrest was made through the Inspector of the Circle, to the Assistant Commissioner.

Seizure, disposal, or destruction of things liable to be seized or destroyed under the Act.

50. All property seized by Salt Revenue Officers as liable to confiscation under the Act shall be sent for safe custody to the officer in charge of the Circle, or to the nearest Salt Store or police station, as most convenient.

51. When property is sent to a police station, it shall be accompanied by a written request to receive and retain it.

52. When illicitly manufactured salt is thus handed over to the police, the senior police officer present at the station shall, in the presence of the witnesses to the seizure and of the accused person, if present, after weighing and recording the weight of each, take from each distinct kind or quality of salt seized (if there be more than one such kind or quality) three samples of not less than 5 tolahs each, which he shall seal with the official seal of the police station, and, after numbering them, deliver two of them to the officer who made the seizure, recording at the same time, on the printed form of request to receive the property which will be presented to him, a note specifying the total weight of each kind seized, according to the weighments made before him, and the corresponding numbers of the samples. The

remainder of the salt and the third sample shall be sealed up with the seals of the officer who made the seizure and of the police station, and shall remain in a secure place in such station till such time as a written order shall be sent by the officer in charge of the Circle, either for the destruction of the articles seized, which shall be carried into effect by the officer presenting such request in the presence of some officer of the police station, and the same certified on the reverse of the order, or for the delivery of the same, or part thereof, as the case may be, to the bearer of the order for production in Court.

53. When salt is delivered at a Salt Store for safe custody, the officer in charge thereof shall adopt the same course with respect thereto as is in Rule 52 prescribed for adoption by the police.

54. When a seizure is made by an officer in charge of a circle in person, or when salt is delivered to any such officer under Rule 50, he may either follow the foregoing procedure, deputing one of his subordinates present at the seizure to take the salt to the police station and receive the samples, or he may himself on the spot take out and seal up the samples and the rest of the seized salt with his own seal. He may then either take the salt seized with him to deposit where he considers it will be safest, or send it for deposit to the nearest or most accessible Salt Store or police station, to be kept, as in the previous case, until further orders. If, however, an officer in charge of a Circle himself seals the salt, he must in the event of the identity of the salt produced in Court being denied by the accused, be prepared to attend and prove the same in person.

55. When any property other than illicitly manufactured salt is sent for safe custody to an officer in charge of a Circle, or to a Salt Store, or to a police station, such officer, or the officer in charge of the Salt Store or police station, as the case may be, shall make such arrangements as he shall think fit, and as shall be suitable, according to the nature of the case, for the safe custody of such property, pending the orders of a Magistrate, or of the officer in charge of the Circle, or of the Assistant Commissioner, or of the Commissioner of the Division, as the case may be.

56. When anything is seized and detained under the Act or the rules made under the Act, it shall not be released until all duty, penalties, and charges due on account thereof have been paid by the owner to the officer who is in possession of such thing.

If the thing is reported for confiscation, it shall not be released unless orders for the release are received from competent authority.

57. If the property so seized and detained shall be an animal, the owner shall provide for its due care and keep, in default of which the animal may be sold to defray charges.

58. If orders are received from competent authority for the release of anything seized and detained, and no duty or penalty is payable in respect of such thing, it shall at once be given up to the owner or his agent on his paying all charges incurred.

59. Should no one be present to receive the thing released, the officer in charge thereof shall do his best to give notice to the owner of the order of the release, and shall cause a similar notice to be affixed on the office premises, at the Assistant Commissioner's office, and at the police station nearest to the owner's residence.

If within two calendar months from the date of the notice no person, entitled to receive the thing, claim it and pay all charges incurred, it shall be sold and the proceeds placed in deposit. After a further period of three calendar months, the money shall be credited to the Government.

60. If any duty is leviable or penalty is imposed by competent authority in respect of the thing seized, unless such duty or penalty, together with all charges incurred, be paid within seven days of the receipt of the orders of competent authority for release subject to such payment, the thing shall be sold, and from the proceeds the duty, penalty and charges shall be deducted, and the balance made over to the owner or his agent.

Should no one be present to receive the money, notice, as under Rule 59, shall be given, the money being kept in deposit for three calendar months.

If not claimed within the period, it shall be credited to the Government.

61. When orders are received from competent authority for the confiscation of anything seized and detained, it shall, with all convenient despatch, be sold or destroyed as the Assistant Commissioner of Salt Revenue may direct.

62. When a Magistrate orders the confiscation of works, materials or implements under section 9 of the Act, they shall be sold or destroyed by dismantling or otherwise under the orders of the Assistant Commissioner of Salt Revenue.

General.

63. All Salt Revenue Officers and all gazetted officers of other departments shall at all time have free passage over all works for the manufacture of salt at which a license has been granted under these rules.

64. The Assistant Commissioner may establish such guard stations at and around Salt Works and Salt Stores as he shall think necessary for the safety of the revenue, and may require that all salt removed from Salt Works for transport to a Salt Store, or from a Salt Store for consumption on payment of duty, shall be taken direct to such guard station as he shall prescribe for examination and comparison with the quantity and other particulars entered in the pass or permit. The Salt Revenue Officer in charge of any such guard station may detain any such consignment of salt which he may find not to correspond with the entries in the pass or permit, pending the orders of the officer in charge of the Circle.

65. Under such general rules as the Assistant Commissioner shall prescribe, all Salt Revenue Officers, not below the rank of Assistant Inspector, shall be at liberty to examine and weigh the salt in store in any Salt Store at any time.

66. The licensee and his servants shall have access to the places where salt is manufactured and stored only during such hours as the Assistant Commissioner may fix for the purpose.

Appeals.

67. Subject to the provisions of these Rules, any person dissatisfied with an order passed by a Salt Revenue Officer may appeal to the immediate superior of such officer. All such appeals shall be accompanied by authenticated copies of the orders appealed against, and shall be forwarded through the officer whose orders are appealed against. For the purposes of this rule, the immediate superior of an Assistant Commissioner, who is an Assistant Commissioner of the Madras Salt Department, shall be the Deputy Commissioner of Salt and Abkari Revenue of the Northern Division, Madras Presidency, and the immediate superior of an Assistant Commissioner, who is a Deputy Commissioner of the Madras Salt Department, shall be the Commissioner of Salt and Abkari Revenue, Madras Presidency. An order passed on an appeal by the Commissioner of Salt and Abkari Revenue, Madras Presidency, shall be final.

5. An appeal against an order of a Registrar refusing to register a birth or death on any other ground than that referred to in proviso (a) to section 19 of the Act shall lie to the Registrar-General, who may, in his discretion, either confirm the order of the Registrar or direct him to register the birth or death.

6. Registers of births and deaths shall be kept in the forms set forth in Schedule C and Schedule D, respectively.

7. When a birth or death has occurred during a journey,

any Registrar may receive notice of such birth or death, and register the same as if it were a birth or death which had occurred within the local area for which he has been appointed.

8. The provisions of rule 4, as to the time within which notice of a birth or death must be given, shall apply to every notice of a birth or death given under the circumstances described in the last foregoing rule.

9. In every case of a birth or death admitted to registration under rule 7, the Registrar to whom the notice of the birth or death is given shall record in his register the reason why the notice was not given to the Registrar of the local area within which the birth or death occurred, and shall, within one week from the date of the registration of the birth or death, forward to the Registrar-General, and to the Registrar of the local area within which the birth or death occurred, a copy of the entry in the register relating to the birth or death.

c. 99, s. 1
XLV of 188

STATEMENT OF OBJECTS AND REASONS.

THE main object of this Bill is to prohibit the manufacture and issue, and restrict the circulation, of stamped or unstamped pieces of copper such as, during the recent depression in the value of that metal, private traders at Jugadri, Gaya, Ludhiana, Beawar and other places have been making and issuing in large quantities for use as money. The pieces circulate at much above their intrinsic value, and their circulation both deprives the taxpayers of this country of that profit on coinage of copper which belongs to every Government, and perpetuates the currency of an inconvenient form of coin.

The other object of the Bill is to suppress the manufacture in British India of coins resembling or apparently intended to resemble or pass for coins which are legal tender or in actual use and circulation in any foreign country.

(b)—An ordinary inspection made at any time when the Inspector has reason to believe the boiler is being improperly worked or that the person in charge is not competent.

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and

if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. HIGH COURT NOTICES.

It is ordered that, in substitution for the rules passed on the 26th day of January last, the following rules be read and passed as the rules and orders of the High Court of Judicature at Fort William in Bengal, to take effect from the 1st day of March 1888 :—

1. A list of references of every description which are ripe for hearing and are pending before the Court itself, or before any of the officers of the Court, or any other Commissioner appointed to take accounts or make enquiries, shall be published at such times and in such manner as the Judge, ordinarily taking motions on the Original Side of the Court, may from time to time determine.

2. The printed cause list for each day shall contain a list of the references liable to be heard on that day by the officers before whom such references are pending.

3. Such list of references shall be divided into two parts: the first of such parts to consist of references of an urgent nature, or which can be quickly concluded, and to be styled "List of urgent references;" the second part to consist of all other references and to be styled "List of ordinary references."

4. Urgent references shall include the following :—

Accounts in mortgage suits.

Sales by the Registrar.

The settlement of proclamations, of conditions of sale, or of conveyances.

Enquiries under section 267 of the Civil Procedure Code, or under section 90 of the Probate and Administration Act.

Enquiries as to what would be proper to be allowed for maintenance or marriage expenses.

Enquiries as to whether proposed terms of settlement would be for the benefit of a minor.

References as to the appointment of guardian, and such other enquiries and references as may be determined by the Court or a Judge.

5. Any Judge sitting on the Original Side may order any particular reference or enquiry to be transferred from either list to the other. Such order need not be made in Court, but may be made upon a representation made by the Registrar or other officer or Commissioner. It shall not be made except by consent or on notice.

6. No reference shall be placed in the list of references for the day unless it be ripe for hearing.

No ordinary reference shall be deemed ripe for hearing until a Judge or the officer to whom the matter is referred has certified that the points in issue have been ascertained.

7. The Registrar or other officer shall, at the commencement of each daily sitting, hear applications with regard to pending references, and shall not hear any reference until such applications have been exhausted; but such application shall not ordinarily be made or heard on any day after the hearing of references have been commenced.

8. The officer or Commissioner shall on each day in the first place hear in order the urgent references on his list for the day, and shall then proceed to hear in order the ordinary references on his list for the day.

9. Each reference shall, unless otherwise ordered by a Judge, be taken in its turn, and it shall be continued *de die en diem* until it be concluded.

No reference on the list of causes for the day shall (without leave of the Court or a Judge) be postponed or adjourned, except under circumstances which would justify the postponement or adjournment of a cause.

10. References not on the list of causes for the day can, at the discretion of the person to whom they have been referred, be postponed or adjourned, but subject to the control or orders of the Judge taking motions on the Original Side.

11. Any Judge sitting on the Original Side may, by an order made upon notice in Court or in Chambers, postpone or adjourn any reference pending before himself or before any officer or Commissioner.

12. When, in the opinion of the Judge taking motions on the Original Side, it is necessary that some or all of the references pending before any officer of the Court or Commissioner should be heard by the Court itself or by some other officer or Commissioner, such Judge may recall such references into Court, and any time make such order as may be necessary for the purpose aforesaid, or if the parties should consent to any such change he may make such order without recalling the reference into Court.

13. The Registrar or other officer taking a reference may at any time, pending the reference or on its conclusion, apply for the opinion of the Court on any question which may arise in the reference, and for such purpose may report specially. Such special reference may be made at the instance of either of the parties, or at the instance of the officer himself.

14. In case an officer refuse or decline to make special reference when requested by a party so to do, such party may apply in Chambers by a petition on notice to the other parties to the reference for an order requiring the officer to report specially.

The Judge may in his direction make such order upon such terms as to costs or otherwise as he may think fit.

15. These rules are to be read with and to form part of the general rules of the Original Side.

16. These rules shall come into operation on and from the 1st day of March 1888.

the 28th February 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 24TH OF FEBRUARY 1888.

THE meteorological conditions which obtained over Bengal at the close of the previous week were those which mark the transition from the cold weather period to the commencement of the hot season. These conditions have also held good throughout the present week. The winds blowing at the southern stations have been very variable in direction, southerly winds prevailing on some days and on others being driven back by a northerly or north-westerly current. Westerly winds have prevailed generally at the inland stations, and in Behar these winds have decidedly increased in force. The variations in temperature have been considerable, there being great difference between the temperatures of the day and night, and on the whole there has been a steady rise of temperature during the week, and the mean temperatures of the last days were decidedly higher than those at the commencement of the week. The changes of humidity have also been remarkable, and from the 18th to the 19th in particular a very rapid decrease in humidity took place, the decrease at Saugor Island equalling no less than 53 per cent., while at Calcutta the decrease was 45 per cent. On the whole, the humidity for the week has been moderately low. For the greater part of the week the movements of the barometer have been small, though pressure has steadily risen for about five days, but on the 19th and 24th pressure increased somewhat rapidly. Over the greater part of the province therefore the meteorological conditions for the week call for no remark, beyond that fine clear weather, with increasing temperature, rather low humidity, and no rain, has generally prevailed; but, on the other hand, for the first day or two in the week conditions were slightly unsettled in East Bengal, and light rain was received, particularly in the Chittagong district.

Pressure.—The mean pressure recorded in the province for the week, taking into consideration only those stations from which observations have been received for a series of years, and which therefore yield reliable averages, has been slightly above the normal at about one-third of the stations and slightly below it at the remainder. For the whole province pressure has been in defect by 0·005 inch.

Temperature.—The mean temperature of the whole province for the week has been in excess of the normal by one degree, but the excess has been largest in Orissa, Chutia Nagpur, and South Behar. The distribution of temperature and its variation from the normal are best seen from the figures given in the following table, where the average maximum, minimum, and mean temperatures at nine typical stations in different districts of the province are compared with the normal values for the period.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending the 24th February 1888.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 56, nearly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, p dew, = fog.
